FUND MANAGER'S COMMENT

The typical portfolio registered a return of 0.64% in March, which was higher than the benchmark KLCI's return of -0.99%. EQ8 Dow Jones Islamic Market Malaysia Titans 25 ETF was the top performer. Gained 10.7%, attributed to its position in the Industrial and Healthcare that advanced in the month. TradePlus S&P New China Tracker MYR was the worst performer. Lost 3.8%, dragged by its heavy-weighting in AIA Group that dropped as earnings reported for FY2023 was below market expectation.
