Global Highlights

④ US: CPI, core PCE inflation remained steady; unemployment rate ticked slightly higher

The US Consumer Price Index (CPI) increased by 0.2% mom in February, sharply lower than January's 0.5%. On a yoy basis, CPI rose at a slower pace of 2.8% in February (January: 3.0%). Core CPI rose by 0.2% in February, lower than January's 0.4%, and increased by 3.1% yoy, slightly lower than January's 3.3%. Separately, the Fed's preferred inflation gauge, core PCE inflation, increased by 0.3% mom in January, up from December's 0.2%, resulting in a yoy increase of 2.6% (December: 2.8%) (Note: February's figures were not available at the time of writing). Additionally, the unemployment rate increased to 4.1% in February from 4.0% in January.

④ EU: Eurozone PMI expanded; inflation eased

The flash purchasing managers' index (PMI) showed business activity in the eurozone continued to show marginal expansion. The composite PMI was 50.2% in February, the same level as in January. Annual inflation eased to 2.4% in February from 2.5% in January. The core rate, which excludes energy, food, alcohol, and tobacco prices, eased to 2.6% from 2.7% in January. Meanwhile, the jobless rate declined to 6.2% in January from 6.3% in December.

④ China: Deflationary pressures deepened in February

China's manufacturing PMI expanded to 50.2% in February, up from 49.1% in January. The non-manufacturing PMI came in at 50.4% in February, up from 50.2% in January. Separately, the Caixin/S&P Global manufacturing PMI rose to 50.8% in February from 50.1% in the previous month. To note, the official and Caixin surveys have different samples, with the Caixin PMI focusing on export-oriented enterprises and SMEs in the country's coastal region.

China's CPI declined -0.7% yoy in February from January's 0.5% mainly driven by the effects of the Spring Festival holiday and fluctuations in global commodity prices. Core CPI declined -0.1% yoy in February from 0.6% in January. Meanwhile, PPI fell 2.2% yoy in February, easing from a 2.3% slide in January, marking the 29th consecutive month of negative growth, highlighting persistent pricing pressures in the production sector.

Malaysia Highlights

④ Malaysia: CPI and core CPI remained steady

Malaysia's CPI increased by 0.1% mom and 1.7% yoy in January 2025, similar to December 2024. Core inflation rose by 0.5% mom (up from 0.2% in December) and 1.8% yoy (compared to 1.6% in December). The headline CPI was primarily driven by higher transport and restaurant costs, offset by a softer food component.

④ Malaysia: Softer performance in January 2025

Malaysia's export growth moderated to 0.3% yoy in January 2025 (from 16.9% in December 2024), while imports rose by 6.2% yoy (down from 11.9% in December). This led to a lower trade surplus of RM3.6 billion in January 2025, compared to RM19.1 billion in December 2024.

Market Performance

- ❷ **Shanghai Shenzhen CSI300 Index** gained 1.9% in February as it continued to benefit from optimism about its AI capabilities following the initial release of DeepSeek's lower-cost open-source AI model in January. Shares in China were sharply higher after government stimulus measures, such interest rate cuts, support for the country's troubled property sector, and liquidity injections, helped to stabilise the economy and restore investor confidence.
- ❷ **Dow Jones Index** declined by 1.6%, the S&P 500 fell by 1.4%, and the Nasdaq dropped by 4.0% in February amid some softer economic data and worries over the potential impact of trade tariffs on the US economy. The weakest sectors were consumer discretionary and communication services, while consumer staples led the gains. Another factor weighing on returns was lingering worries over the sustainability of earnings from US mega cap tech stocks, notably those exposed to the artificial intelligence theme.
- ❷ **Euro Stoxx 50 Index** gained 3.3% in February. The financials sector led the gains with bank shares generally performing well amid robust corporate earnings and plans for shareholder returns. Other top gaining sectors included communication services. Within industrials, defence stocks moved markedly on expectations that European governments will have to lift military spending. The information technology and healthcare sectors underperformed in the month.
- ❷ **Nikkei 225 Index** lost 6.1% due to weak performance in large-cap stocks, particularly in the technology and exporter sectors. Market sentiment remained cautious due to US trade policy uncertainties, leading to a sell-off in Japanese equities, particularly AI and exporter stocks. US economic concerns and lower bond yields pressured markets, while Japan's solid GDP data, BOJ hawkishness, and corporate earnings growth supported the yen and Japanese stocks.
- ❷ **FBMKLCI Index** gained 1.1% mom after a weak start this year, closing at 1,574.70. In contrast, the Small Cap Index fell by 6.6%, while the Mid 70 Index decreased by 5.4%. Sector-wise in February, the top performing sectors were Plantation, Finance, and Construction, up 3.6%, 2.5%, and 1.5%, respectively. The worst performing sectors were Technology, Healthcare, and Energy, which saw sharp declines of 13.1%, 10.5% and 8.4%, respectively. Foreign investors continued to be net sellers for the fifth consecutive month in February, recording net sell flows of RM2.2bn, with outflows totaling RM13.1bn over the past five months.

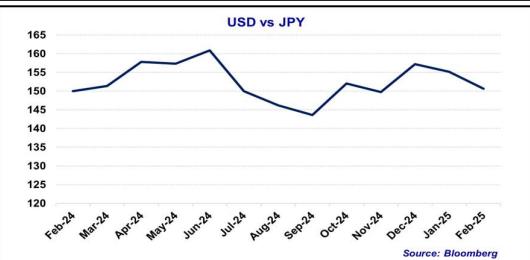

Stock Market Indices Performance

Currency

- ❷ **USDCNY:** The CNY depreciated by 0.5% against the USD in February, driven by concerns on tariffs imposed by Trump. Meanwhile, the Dollar Index declined 0.7% to 107.6.
- ❷ **USDJPY:** The JPY appreciated by 2.9% against the USD amid hawkish comments from some Bank of Japan (BOJ) officials, leading to an increase in Japanese government bond yields and a narrowing interest rate gap with the US.
- ❷ **USDMYR:** The MYR remained range-bound throughout the month, influenced by trade/tariff developments and broader risk sentiment, with a slight depreciation of 0.1% in February, closing the month lower.

Market Outlook

- Globally, amid growing concerns about potential overcapacity in AI infrastructure and its effect on overall market sentiment, investors are likely to remain on the sidelines. Additionally, ongoing worries about President Trump's tariff plans and measures to limit investments between the US and China will continue to weigh on global trade and economic growth, dampening risk appetite. As global markets grapple with heightened uncertainty, we emphasize the importance of diversification and a focus on quality amid volatility.
- The Malaysian market remained weak throughout the month, with mid and small-cap stocks lagging behind large-cap stocks. The results season was mixed, with sectors like oil & gas, technology, healthcare, rubber products, consumer, and auto underperforming, while plantations, transport, property, and basic materials exceeded expectations. Positive earnings revisions were seen in REITs, plantation, banking, and property. Valuation remains attractive with the KLCI trading at 13.8x P/E, 1 standard deviation below its 10-year mean. FBM Emas which comprises the big, medium and small cap companies in Malaysia now trades at 13.4x P/E, 1.3 standard deviation below its 10-year mean. We remain vigilant in our stock and sector selection against increasing macro risks from trade tensions and geopolitical uncertainties.

Review

- **Performance Overview** – Our portfolio lost 1.2%, underperforming the benchmark monthly return rate of 0.4%. Meanwhile, most funds with Malaysia exposure in our portfolio posted negative returns for February 2025, offset by gains from selected funds with Asia/China exposure.
- **Top Performer** – Principal Greater China Equity MYR Fund – The fund's strong performance stemmed from its exposure to HK Technology, as Chinese-backed Deepseek reignited investor interest in the sector.
- **Worst Performer** – KAF Vision Fund – The fund's underperformance was dragged by its exposure Energy, Industrial and Technology sectors.
- **Allocation** – We made no changes to the portfolio for the month of February. We will continue to monitor the performance of the funds and rebalance the portfolio, when necessary, in line with the market condition.

Review

- Performance Overview** – All funds with Malaysia and Asia exposure in our portfolio posted negative returns for February 2025.
- Top Performer** – Kenanga ASnitaBOND Fund – The fund's positive performance was supported by the defensive nature of bonds.
- Worst Performer** – KAF Islamic Dividend Income Fund – The fund's underperformance was dragged by its exposure Energy, Industrial and Technology sectors.
- Allocation** – We removed Dana Makmur Pheim as it was suspended by the provident fund. We introduced Manulife Investment Al-Umran Fund in both Conservative and Aggressive mandates and increased our position in Principal Islamic Lifetime Balanced MYR Fund for the Conservative mandate. Both funds have consistently ranked in the top quartile for 1, 3, and 5-year performance, and are award-winning Lipper funds. We will continue to monitor the performance of the funds and rebalance the portfolio, when necessary, in line with the market condition.

YTD Review – Islamic

- Top performer:** Eastspring Investments Dinasti Equity Fund – The fund's YTD strong performance stemmed from its exposure to HK Technology, as Chinese-backed Deepseek reigned investor interest in the sector.
- Worst performer:** Kenanga OA Inv-Kenanga Shariah Growth Opps Fund – YTD underperformance was dragged by its exposure in AI/DC-related stocks, after news of Deepseek's Large Language Model (LLM) performance dampened sentiment on capex investment.

		Average	2.10	0.72	3.92	10.27	1.54	9.40	

Note:

ABS denotes ranking based on absolute return
 RAR denotes ranking based on risk-adjusted return
 - YTD is from 31/12/2024 to 28/02/2025.
 - 1- and 3-year returns are based on rolling returns.
 'E' - EPF approved, based on latest available data on Lipper

The Mechanism

- 1) Superior ranking based on risk-adjusted-return.
- 2) Commendable ranking based on absolute return.
- 3) Fund size (preferably RM50 million and above)
- 4) Check on short-term return (1-month or 3-month returns)
- 5) Check top holdings and sectors allocation
- 6) Qualitative evaluations (if needed)
