**The portfolio performance is based on a composite of all individual portfolios under the same mandate type and does not represent any specific portfolio. Returns are calculated using a composite Time-Weighted Rate of Return (TWRR), with individual portfolio returns weighted by their beginning-of-period asset values to account for varying portfolio sizes and cash flows. For more details on how the composite return is derived, please refer to the article titled "Understanding Private Mandate" on www.phillipinvest.com.my.*

## FUND MANAGER'S COMMENT

The typical portfolio registered a return of 2.60% in September, which was higher than the benchmark FBM EMAS's return of 2.42%.

Sector-wise in September, the top-performing sectors were Utilities, Industrial, and Consumer, which rose 6.4%, 5.7%, and 5.3% m-o-m, respectively. The worst-performing sectors were Healthcare, Construction, and Finance, which gained only 0.6%, 0.6%, and 0.7% m-o-m, respectively. Foreign investors returned as net buyers in September, recording inflows of RM77 million. Separately, in September, there were two listings on the ACE Market (JS Solar Holding Bhd and Express Powerr Solutions (M) Bhd).

We remain constructive on the Malaysia market, supported by multiple tailwinds. Expectations of a Fed easing cycle from 4Q25 into 2026 should improve global liquidity and risk appetite across Asia. Domestically, fiscal reforms are largely priced in, while resilient macro fundamentals, robust consumption, and an expanding investment pipeline support growth. Structural transformation is reinforced by key national blueprints (13MP, NIMP 2030, NSS, NETR), while Malaysia's ASEAN Chairmanship enhances its strategic relevance. Strong local institutional flows, a firmer ringgit, undemanding CY26 P/E of 13.9x, and record-low foreign shareholding of 18.8% further strengthen the market's risk reward profile.
