*The portfolio performance is based on a composite of all individual portfolios under the same mandate type and does not represent any specific portfolio. Returns are calculated using a composite Time-Weighted Rate of Return (TWRR), with individual portfolio returns weighted by their beginning-of-period asset values to account for varying portfolio sizes and cash flows. For more details on how the composite return is derived, please refer to the article titled "Understanding Private Mandate" on www.phillipinvest.com.my.

FUND MANAGER'S COMMENT

Sector-wise in November, the top-performing sectors were Finance, Property, and Plantation, which rose 2.5%, 2.4%, and 1.0% m-o-m, respectively. The worst-performing sectors were Technology, Utilities, and Healthcare, which lost 8.9%, 8.3%, and 6.8% m-o-m, respectively. Foreign investors continued to be net sellers in November, recording outflows of RM1.1 billion. Separately, in November, there were five listings on the ACE Market (Farmiera Bhd, PMW International Bhd, Aquawalk Grp Bhd, Polymer Link Holdings Bhd, and Foodie Media Bhd).

We remain constructive on the Malaysia market, supported by multiple tailwinds. Expectations of a Fed easing cycle from 4Q25 into 2026 should improve global liquidity and risk appetite across Asia. Furthermore, Malaysia's growth outlook remains supported by resilient fundamentals, firm consumption, rising investments, and ongoing structural reforms under key national blueprints. In the near term, the KLCI may face volatility as investors assess the post-Sabah election outcome and the likelihood of a cabinet reshuffle, which could strengthen Federal-Sabah ties and signal greater inclusivity. With Hajiji Noor sworn in for a second term, the new coalition government is expected to align more closely with the PM's Madani administration and national priorities. Looking further ahead, firm local institutional demand, a stronger ringgit, undemanding CY26 P/E of 14.2x, and historically low foreign ownership of 18.7% continue to underpin an attractive risk-reward backdrop.
