Returns are calculated using a composite Time-Weighted Rate of Return (TWRR), with individual portfolio returns weighted by their beginning-of-period asset values to account for varying portfolio sizes and cash flows. FUND MANAGER'S COMMENT

Foreign investors were net buyers, with a net inflow of RM171.3 million, bringing the year-to-date (YTD) inflows to RM1.2 billion. Separately, in February, there was one listing on the Main Market (Hock Soon Capital Bhd), three listings on the ACE Market (Ambest Grp Bhd, Kee Ming Grp Bhd, and Teamstar Bhd), and two listings on the LEAP Market (Bentley Music Grp Berhad and Whitman Holdings Bhd).

4Q2025 results were broadly in line overall. Outperformers were mainly seen in Healthcare, selected Consumer names, Utilities and Property. Underperformers were concentrated in Construction, Industrial, Telecommunications & Media, and parts of Technology, reflecting margin and demand pressures. On a separate note, we view the conflict between the United States, Israel and Iran presents second-order impacts to Malaysia - transmitted largely via oil prices and capital flows. Malaysia's direct trade exposure to Iran remains structurally minimal. We remain focused on domestically oriented sectors, as well as quality and dividend-paying stocks.
